

Town of Chichester, New Hampshire

Cemetery Trustees meeting

March 7, 2022

March 7, 2022, at 9:00 a.m. Ruth Hammen, Fred Shaw and Brenda Boswak met at the Historical building for a Cemetery Trustees meeting.

Old business

We have begun removing the remembrance wreaths on veterans' gravesites. Brenda will post information on social media inviting people to participate in the removal of the wreaths. The wreaths can be dropped off at the Historical Society building and Brenda will dispose of them. Information will be posted on the Chichester town website, also. The shepherd hooks will remain until the time that the American flag is placed on the veterans' gravesites, this Spring. The shepherds hook will be kept at the Historical Society building. Brenda will find a suitable storage container solution for them.

Fred & Ruthie are continuing research on the accuracy of the Edmunds-Stanyan Cemetery deeds.

New business

Ruth has sorted through the American flags that were removed from the veterans' gravesite to assess how many are reusable. She will order new ones as needed for placement on Memorial Day.

There are some trees marked for removal on Horse Corner Rd. near Knowlton-Edgerly Cemetery. Brenda will call Until to see if they are

willing to remove a couple more that are encroaching on the cemetery boundary walls.

The Cemetery Trustees were notified of a name change for the privately owned cemetery currently named *Langley-Watson*, located on Bailey Road. The new name will be *Towle-French*. Ruthie will follow up to verify the completion of this.

Fred will contact the Attorney General's office for information on changing the burial lot deed to "right of interment".

We are planning a tour of the cemeteries at our April meeting to inspect the condition of each cemetery and prioritize the stones needing repairs.

Meeting adjourned 11:30 a.m.

Respectfully submitted,

Brenda Boswak, Cemetery Trustee, Secretary
