

## Road Advisory Committee Minutes 05/08/2017

### Chichester Road Advisory Committee

#### Minutes of May 8, 2017

Attending: Allen Mayville, Jr., Jim Plunkett, Brian Eldredge, Doug Hall, Tom Jameson, Guy Goodwin

Chair Allen Mayville opened the meeting at 6:33pm.

Members reviewed the minutes of the April 10 meeting. A motion was then made, seconded and voted unanimously to approve the minutes of April 10.

The committee discussed their individual onsite visits to the 7 possible projects that had been identified at the April meeting for possible reconstruction work in 2018. There was a diversity of opinion about the roads that deserved highest priority.

Guy listed King Road and Kellys Corner Road as his highest priority

Tom thought completing Horse Corner Road was most important

Jim mentioned King Road and Horse Corner Road

Allen mentioned Kellys Corner Road with Websters Mills Road as a project.

Doug felt East Ricker Road was in the worst condition and fit with Bear Hill Road as a project.

Brian agreed with Guy that King Road and Kellys Corner Road should be highest priority

After wide ranging discussion, it was decided that Websters Mills Road, Bear Hill Road, and East Ricker Road segments were in need of work in some subsequent year, perhaps 2019 or later.

The committee agreed to make an onsite inspection of the following paved road segments at its next meeting.

Horse Corner Rd – segment 8	0.450 miles	House #125 to Garvin Hill Rd
Horse Corner Rd – segment 10	0.220 miles	Towle Road to house #79
Kelly's Corner Rd – segments 1,2	0.353 miles	Pleasant St southward to Rte 28.
King Rd – segments 1,2,3,4	1.314 miles	Loudon town line to Route 4

Jim reported that the 2017 road projects will not be done until late June. Jodi evidently does not want to use Tax Anticipation Notes to obtain funds to pay the contractor.

The next meeting will be 6:30pm at the Highway Office on Monday June 12. If it is not raining, the committee will go from there to inspect the road segments listed above.

The meeting was adjourned at 7:19 pm.

Respectfully submitted by

Doug Hall
