Webster Mills Road Culvert Discussion-

Mr. Mayville stated that the culvert is too small for the amount of water and it drains. He recommend a concrete culvert for the road conditions. He also stated that it needs head walls.

Mr. Blaney stated that in the spring time the water backs up into resident's yards from the culvert.

Mr. Plunkett stated that no one has ever informed him of the problem so he has been unaware of an issues.

Mr. Kojigan stated that he hasn't seen any water issues and has lived there for many years.

Mr. Eldridge stated that he brought it up last year and recommends that the culvert be replaced now while the road is being done so it doesn't ruin the road later.

Mr. Millette asked if the contractors inspect the culverts before bidding. Mr. Plunkett replied negative.

Mr. Merrill stated that he would put a culvert in with a free day of work if the Town supplied the materials.

Mr. Millette stated that it makes no sense to spend the amount of money on the road reconstruction and not replace the culvert so we can get a twenty year life span on it.

The RAC and the Road Agent agreed that all other culverts on the road are in good working order.

Mrs. Pinard stated that she recommends to go with the pipe as the cost needs to be found in the budget and so that it doesn't create issues with Merrill Construction schedule and it can be completed by the start of school.

Mr. Merrill stated that a pipe would suffice and work well for the road.

Mr. Plunkett will get prices from Shea and Phoenix and availability for 36' culvert and headwalls and get them emailed to the Selectmen's Office.

The property owners, Derek Belanger and Mariellen Breton were upset with the large increase on their newly owned property and provided additional assessments.

Mr. Roberge stated that while he did take the appraisals the property owner provided under advisement, neither of them addressed the fact that the land is sub dividable which increases the value.

The property owners stated that they were not able to subdivide and could provide documentation.

Mr. Roberge stated that if he had proof that the property was not able to be subdivided he could reduce the assessment.

The Board of Selectmen asked the property owners to provide the documentation to the Selectmen's office for review.
