Map Description:
The NH Fish and Game's Wildlife Action Plan map unfragmented lands throughout the state. Unfragmented lands includes areas that are typically not affected by roads, including those found in urban sites, suburbs, and rural residential areas. Many species of wildlife need large, unfragmented areas for survival. Protecting these areas is important for biodiversity. Conservation lands have also been added to show where the many town-owned and private lands are located that have been protected over time, as well as the resources they protect.

Data Sources:
 -Roads from NH DOT, downloaded from NH GRANIT
 -Surface Water and streams (NHD), downloaded from NH GRANIT
 -Wetlands from NWS, downloaded from NH GRANIT
 -Political Boundaries, downloaded from NH GRANIT
 -Conservation Lands, downloaded from NH GRANIT

Map created for planning purposes only. Accuracy of data to be verified by end user. Please reference Moosewood Ecological GIS Data Disclaimer for more information on its use and purpose.

Prepared for the Town of Chichester
 Coordinate System: NAD 1983 StatePlane New Hampshire FIPS 2800 Feet
 Projection: Transverse Mercator
 Datum: North American 1983
 False Easting: 984,250.0000
 False Northing: 0.0000
 Central Meridian: -71.6667
 Scale Factor: 1.0000
 Latitude Of Origin: 42.5000
 Units: Foot US
